

Find the Perfect Candidate, Faster

AI-powered resume screener that analyzes bulk resumes and returns a ranked shortlist in seconds. Fast, unbiased, and ready to integrate into hiring workflows.

Core Capabilities

AI-Powered Scoring

Multi-criteria scores for every resume — skills, experience, education, and fit.

Batch Processing

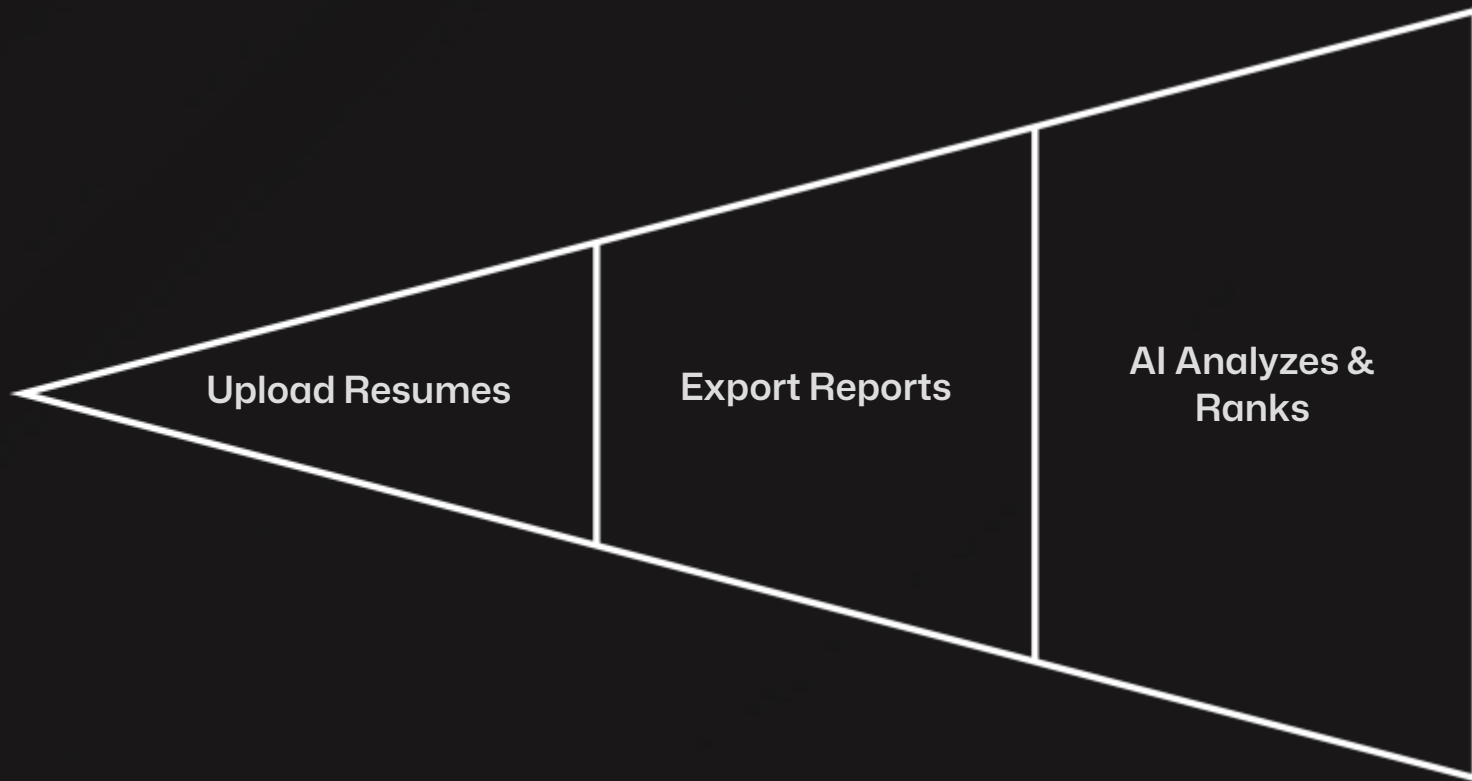

Analyze dozens of PDFs at once and produce an instant ranked summary.

PDF Reports

Downloadable multi-page reports with strengths, weaknesses, and justifications.

How It Works – Overview

Three simple steps transform a pile of resumes into a prioritized list of top candidates with clear rationale.

Step 1 – Upload Documents

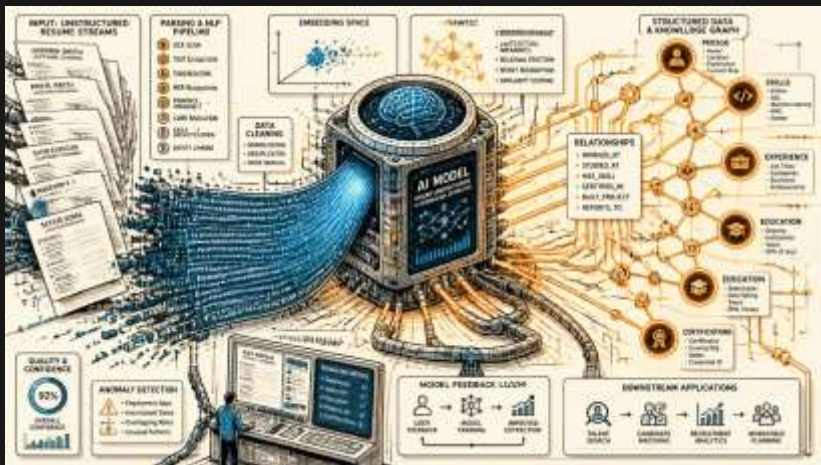

What to provide

- Job description
- Candidate resumes (PDF format)

Why it works

Standardized inputs let the engine compare candidates precisely against role requirements.

Step 2 – AI Analyzes & Ranks

Multi-criteria scoring

Skills, experience level, education, role fit, and soft-skill signals.

Ranking logic

Aggregates scores into a ranked list with transparent justifications.

Speed & scale

Processes large batches in seconds to keep hiring timelines tight.

Step 3 – Actionable Insights

Receive a ranked list with: detailed justifications, candidate strengths and weaknesses, and suggested next steps. Export a professional PDF report for sharing or archival.

Reports include explainable reasons for each score to support fair, defensible hiring decisions.

Benefits for Hiring Teams

Speed

Shortlist top candidates in seconds—dramatically reduce screening time.

Consistency

Objective scoring reduces bias and ensures fair comparisons.

Documentation

Downloadable PDF reports simplify review, sharing, and audit trails.
